the explorers have gear as when the explorers reach the second phase of the training as they can go into more environments.

NEW BUSINESS: **PRELIMINARY BUDGET:** Chief Bill Carter reported to the board that the staff added a firefighter position. Chief Carter stated the new FF would have 8:00-5:00 hours and a future on-call position when ready. Having another on-call duty officer will help with the workload of this department. The goal is also for future movement in the department.

ACGC FINAL PAYMENT: Skip Lucier reported to the board the current updates for the firehouse. Fred Russell has reviewed all the As-Builts and O&M and sent a letter three days before regarding the incomplete manuals. Many issues are minor, but ACGC must address a few larger ones. Skip informed the board if we have problems with As-Builts, the general contractor is responsible for two years. If what we need is not in the As-Builts, any future projects on the building is compromised with incorrect plans. The general contractor bears responsibilities for the As-Builts. Skip asked the board if we want to return to the general contractor and have a written contract stating they will honor the warranties and As-Builts as they are. The Board of Directors agreed the As-Builts need to correct. Arnie Mello suggested to the board of directors that we wait until the general contractor responds to Fred Russell's letter. Tom Herman suggested sending a letter to ACGC with outstanding deficiencies from the Board of Directors. Tom Herman also added the final payment is the only leverage for the As-Builts. Skip Lucier stated the general contractor had sub-contractors who did a great job and others who did not. Motion to move forward with ACGC's final payment. Tom Herman 1st, with an addendum: Respond to ACGC stating deficiencies that need to be corrected. Skip Lucier 2nd.
